## Professional Summary

Creative Web Developer with foundational HTML, CSS, and JavaScript expertise, dedicated to crafting user-centric, responsive websites. Adept at blending innovative design with technical skills, I aim to produce engaging user experiences. I am committed to lifelong learning and leveraging the latest trends to drive project success.

## Technical Skills

- Languages: HTML5, CSS3, JavaScript
- Tools & Technologies: Git, GitHub, flexbox, CSS Grid
- Frameworks: React (in progress)

## Professional Experience

*Web Developer*

- Sam's Seafood Steakhouse Website, March 2022: Spearheaded the design and deployment, enhancing user experience with responsive CSS Flexbox layouts.
- Simon Says Game, December 2023: Created an engaging JavaScript-based game, improving dynamic content interaction.
- Personal Portfolio, January 2024: Developed a comprehensive showcase of my web projects, emphasizing responsive design through CSS Grid and Flexbox.

## Education & Certifications

- JavaScript Programming Certificate, Cornell University, August 2022
- Web Development Certificate Program, Chegg Skills, July - December 2023
- Web Development Certificate, Codecademy

## Soft Skills

- Exceptional communicator adept in English and Spanish.
- Proven time management prowess.
- Adaptable, with a positive outlook towards challenges.

## Personal Interests

- Fitness, music, gaming, and family time.
